## ROLCO TSUNAMI – RIDE THE WAVE

**INTRODUCING THE TSUNAMI FROM ROLCO BOATS, THIS REAR MOUNT VEE-DRIVE, WALK-THRU BOW RIDER, WAKE AND WATER SKI CROSSOVER BOAT GUARANTEES THE BEST IN QUALITY AND VALUE FOR MONEY AROUND.**

This extremely versatile 20ft family friendly boat boasts seating for 11, has an extremely spacious bow and plush vinyl wraparound seating for all day comfort on the water. The exquisite hull contours combined with designer vinyl wrap graphics will guarantee all eyes looking your way this summer. Rolco's wake enhancing technology (W.E.T) customizes the size and shape of the wake from

a flat wake for skiing to a humongous wake for wake boarding. W.E.T is fully operational with a flick of a switch to fill or empty the ballast tanks or adjust the wake enhancing plate on the fly. This makes for the ultimate wake for those flawless manoeuvres.

Boasting maximum storage capacity, the Tsunami has 2 huge rear storage lockers, front observer storage, front bow storage, glove compartment in the dash and under seating storage throughout the whole boat for tonnes of gear. The Tsunami comes standard with snap-in and snap-out carpet for easy wash down and maintenance.

The massive rear boarding platform can be

folded down by one person without tools in seconds for ease of parking into the shed. Powered by a Fuel Injected Indmar Forward Neutral Reverse Vee-Drive Engine, pumping out in excess of 330hp, this engine has loads of grunt to allow you to throttle up for that flat skiers wash or throttle down for the ultimate tsunami wake.

The Tsunami is everything you ever imagined in a world class boat designed and built by Rolco. Whether you are an entire family, pro or a beginner the Tsunami will suit your every need, ensuring your time on the water is filled with the maximum amount of excitement and enjoyment.
